

MICHEL MANTHEAKIS SAFARIS LTD.

TANZANIA AND ZANZIBAR
2026

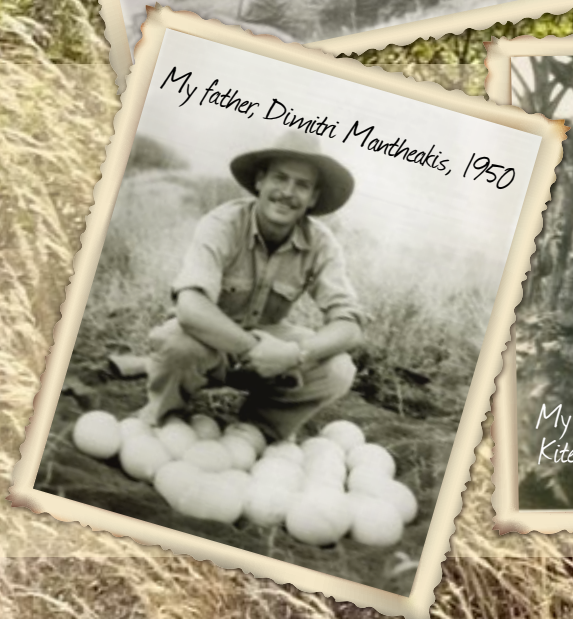

We are what we repeatedly do, excellence then is not an act but a habit " - Aristotle

Emmanuel Mantheakis, 1904

John Kazamias, early 1900's

My father, Dimitri Mantheakis, 1950

*My mother, Stella Kazamias, in
Kitete, 1935*

"In 1895 my grandfather Emmanuel Mantheakis left the Greek Island of Crete to come to Tanzania, what was then called German East Africa.. My maternal grandfather, John Kazamias, arrived in 1905. Both my grandfathers and my father were passionate hunters, making me the third generation hunter. A legacy I take pride in and a passion I share with my children..."

Michel Mantheakis

"More than 30 years have passed since I first hunted with Michel Mantheakis. Back then, when we were both a lot younger, I recognized him as one of the best professional hunters I had ever known. The passing years and subsequent safaris have only strengthened that conviction! I have watched him mature into not only a fine outfitter and consummate PH, but also a leader in the Tanzanian safari community, always at the forefront in promoting ethical sport hunting and wildlife conservation.

His camp staff have consistently been the best I have ever seen, he takes good care of them, and they take good care of Michel and his clients. His camps are well-run and extremely comfortable, far above standards, and his camp fare is second to none. After three decades in the business Michel still loves it...he remains full of enthusiasm for the hunt, and works as hard as any professional hunter I have ever known to please his clients and ensure the success of the hunt."

CRAIG BODDINGTON
WINNER OF 2017 WEATHERBY AWARD

"Hunting with Michel Mantheakis means the following: Great hunting territory, great food, great company and entertainment, great facilities and equipment and most of all, great fun!! I will definitely be returning to hunt with this Professional Hunter and outfitter!"

JIM SHOCKEY
WINNER OF 2019 WEATHERBY AWARD

Company Profile

"We are what we repeatedly do. Excellence then, is not an act, but a habit." ARISTOTLE

Michel Mantheakis Safaris Ltd (MMS), is a family-owned company established in 2010 and operated by the dynamic duo: my wife, Nicole, and myself, alongside our professional management team.

With over 39 years of Professional hunting experience and over 30 years of owning and operating one of the top-quality hunting companies in Tanzania, we offer you not only the best of Big Game Western Tanzania in our Lukwati South Game Reserve and Muhesi Game Reserve concessions, but also a wide selection of Masai species in our Longido GCA concession.

Having reached the forefront of the Tanzanian hunting industry stems from a powerful combination: my academic background in Zoology and Wildlife Science, a deep-rooted passion for hunting, 39 years of reputable hunting experience in Tanzania, a steadfast commitment to conservation and rigorous anti-poaching efforts, all supported by efficient administration.

To present our clients with the best possible trophy opportunities and luxury safari experience, we applied our signature approach of combining maximum anti-poaching effort with a sustainable and minimum number of safaris, opening lots of new roads to access new, untouched hunting grounds and trophies to ensure optimum results for our clients. Not only do these strategies improve the wildlife population and its habitat in our concessions,

but also improve the trophy quality and hunting success rate. In just 12 years of dedicated full-time anti-poaching in our Lukwati South Game Reserve concession, and 10 years in Longido GCA, the results are phenomenal; the success of our safaris surpassed our expectations and the increase of game in our concessions is heartwarming.

By promoting ethical and sustainable hunting, together with a strong conservation ethos, determined anti-poaching and tangible Community benefits, we attract the more discerning and refined hunters. Those who care about conservation and prefer to hunt with an outfitter who not only works tirelessly to get *great* trophies, but one who also truly believes in and practices conservation rather than just claiming to.

Anybody can offer you a trophy hunt, but only a few will offer you that great trophy hunt. The kind that gives you that memorable safari experience and gratifying satisfaction of knowing you spent your money wisely, while at the same time investing in the future survival of African wildlife and the sport you so cherish: hunting.

We warmly welcome you to the Africa of your dreams.

Conservation and anti-poaching

"Every person has the duty to protect the natural resources of the United Republic..."

Article 27 of The Constitution of the United Republic of Tanzania

Few hunting companies in Tanzania can match the successful anti-poaching track record and wildlife population recovery achieved in the concessions that Michel Mantheakis currently manages or those he managed in the past. It is not simply a matter of investing money in anti-poaching efforts; it is about ensuring that the investment translates into tangible, meaningful results. It takes a dedicated conservation ethos and acumen to create the best results and we are very proud of our staff and of our achievements.

We started our full-time anti-poaching efforts in December 2012 in cooperation with the Lukwati/Piti Game Reserve Authority who provide 2 to 4 Game Scouts per team. In 2014 we bought 2 boats and started a second all-year round joint anti-poaching team to deal with the poachers coming from across Lake Rukwa which we border for 40 km. The determined efforts of our 2 teams have brought poaching down from previously alarming to **now negligible levels**. In the years since, our successes are phenomenal and the wildlife has increased tremendously.

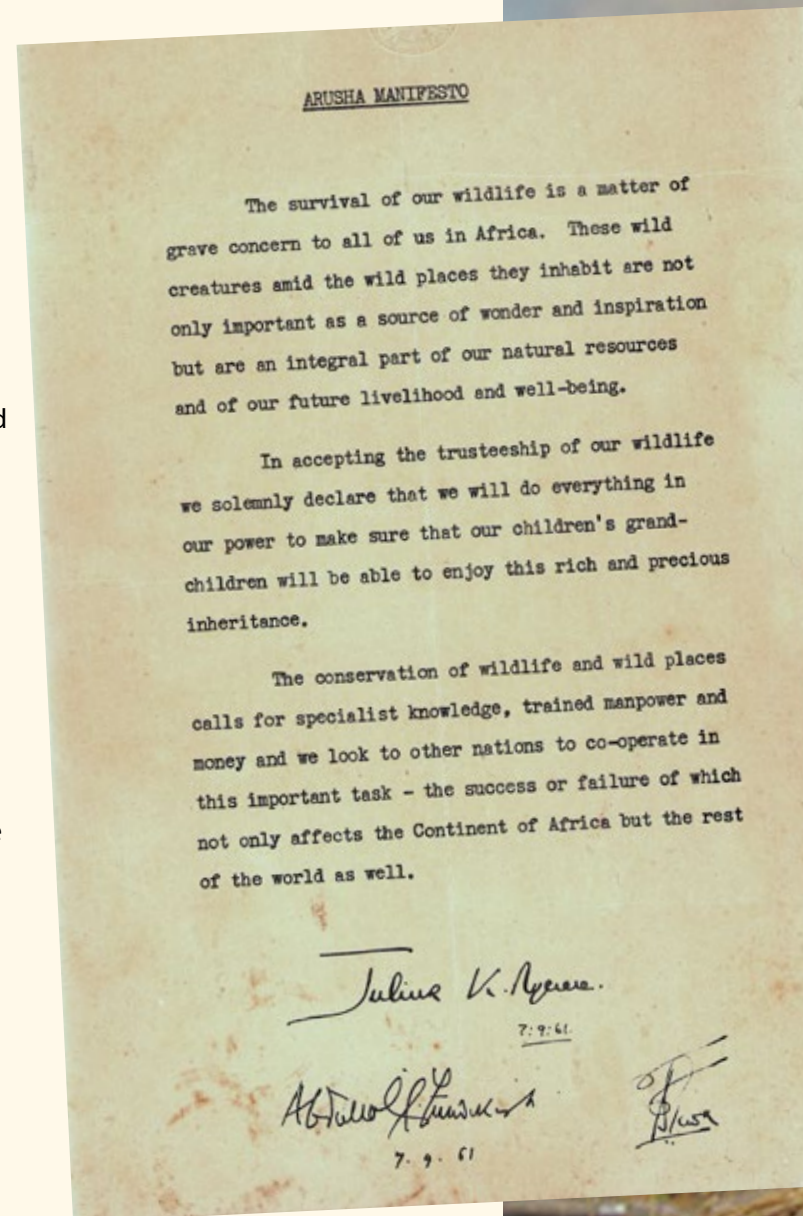

In Longido GCA we also have all-year round anti-poaching teams, containing of 2 Unit Game Scouts or District Game Scouts. Thanks to the teams' dedicated efforts and strong, consistent presence, we can earnestly say we have controlled poaching to the level where it is now a rare occurrence. Giraffes are plentiful again, big cat tracks are appearing more regularly, and elephants are more comfortably using the available quality habitats according to their seasonal needs.

We are determined to enjoy that same successful anti-poaching outcome in Muhesi Game Reserve as we are putting in a huge effort with 16 anti-poaching staff combined with 4 to 8 Game scouts operating up to 4 different patrols at a time by using 2 vehicle and 8 motorbikes. The result of our intensive anti-poaching efforts is already evident, and we are not going to slow down until poaching is brought down to insignificant levels. This area was without a hunting company to boost patrolling for 6 years, but we found it in better condition than expected thanks to the efforts of The Tanzania Wildlife Management Authority.

Without our hunting clientele none of the above would have been possible, and we thank them for their patronage. Our hunters generate the necessary incentive and funding for our determined and successful, ongoing anti-poaching efforts.

As custodians of our natural inheritance, what gives us the right to hunt is this continuous commitment to protect and conserve the wildlife and its habitat for future generations. We should never forget this moral obligation and we certainly have not. Even in these times of wildlife flourishing, we must persevere with a strong guard and never ceasing patrols.

For us, sustainable trophy hunting is wildlife conservation, and it absolutely requires persistent devotion to curbing poaching.

Elephant killed by meat poachers.

Kiwengwa - Pongwe Forest Reserve office renovated in Zanzibar.

Poached female Bushbuck.

Poachers apprehended with muzzle loaders and game meat.

The scourge of Masailand: The destruction of precious acacia woodlands to make charcoal. Due to our all-year round anti-poaching patrols we find less and less activity.

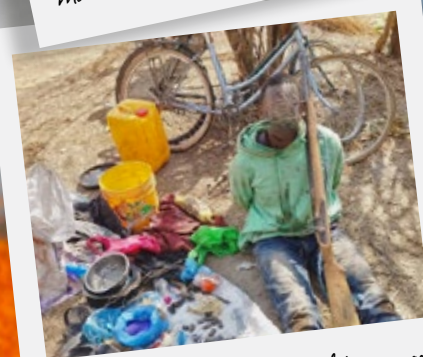

Illegal timber cutting activity.

Another poached Giraffe for its meat.

3 poachers caught with their homemade muzzle loaders.

Another poacher with his kit of homemade bullets, rifle and gunpowder.

Corporate Social Responsibility

Community development is not just a Government requirement for outfitters in Tanzania; it is an important conservation strategy and our corporate social responsibility. We are not just outfitters; we are stewards of change using the benefits of hunting to transform lives and safeguard our wildlife.

Protecting our wildlife means addressing the root cause—poverty. Our corporate social responsibility programs are rooted in this principle; by sharing the benefits of hunting we discourage the local communities with whom we share our wildlife concessions from otherwise turning to poaching as a means of subsistence.

In order to build the bridge out of poverty, we channel the proceeds from hunting towards meaningful projects that serve the entire community such as health, education and clean water. We are achieving our goal to create the necessary awareness within the local community that wildlife is a precious natural resource that needs continuous protection for their own long-term benefit.

One of our newest and long-term projects is the Neema Foundation, a charity which financially supports the widows and families of deceased wildlife rangers who were killed during anti-poaching operations. Since their widows and children are often left without a breadwinner, we are setting up a project to cover their living costs, health and education expenses as well as other basic amenities to ensure their wellbeing and the futures of the children. These rangers have donated their lives to wildlife conservation so the least we can do is support their families in exchange.

When you hunt with *us*, you will enjoy the satisfaction in knowing that *you* are truly contributing to the betterment of lives of those less privileged: the key stakeholders, and our partners in wildlife and habitat conservation.

Together with our local communities we are the guardians who conserve wildlife and its habitat for future generations of hunters.

Inauguration of staff house of Kimoko clinic.

Sponsoring 2 girls from Longido for higher education

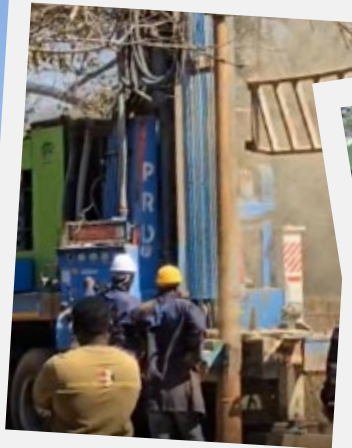

Thank you Conservation Force for making the Kimoko Clinic project happen.

Distributing chicken for underprivileged people through the mosques around our concessions in Zanzibar during Eid.

"I have the simplest of tastes. I am always satisfied with the best."

OSCAR WILDE

Camps

Our hunting expeditions truly redefine the art of safari. We pride ourselves on our history of running luxurious camps with an unrivaled personal service and the finest cuisine.

Whether that be succulent game or mouthwatering seafood, all our delicious meals are complemented by fresh vegetables, a fine selection of South African wines, a large variety of spirits and ice-cold beverages. Whilst you reminisce around the campfire with an appetizers and your favorite drink, our cooks will be putting the final touches to yet another superb three course meal. Meals will be served in our comfortable, romantic dining area and occasionally under the enchanting star-filled African sky.

Your large, luxurious and well-ventilated insect proof tent designed for your utmost comfort has been situated to provide you both privacy and a scenic view. Elegantly furnished to evoke the ambiance and the romance of the East Africa of bygone days, your tent will have a large en-suite bathroom with both hot and cold running water, shower and flush toilet. A home away from home.

In order to enhance your hunting opportunities and experience, freshly prepared picnic lunches will be served to you in the shade of the great African savannah as you rest.

With your wellbeing and luxury in mind, all our camp amenities will consist of solar panels and battery bank, inverters and multiplugs with the possibility to charge camera, batteries, laptops and telephones, Wifi availability throughout camp, deep freezers and fridges, a back-up generator, HF and VHF 2-way radio communication systems, satellite phones and comprehensive first-aid kits. Solar powered lamps combined with the classical hurricane lanterns, provide lighting all around the camp and in your tent. Daily laundry service will be available throughout your stay.

We offer you more than a safari; we offer you a symphony of luxury, comfort and adventure.

Longido Game Control Area

The opportunity to hunt this great concession offers you not only a **wide selection of Masai species**, but also offers you good trophy quality in highest success rate and availability of game while enjoying a stunning landscape.

This superb Masailand hunting concession is 578sq km (223sq mile) and located in northern Tanzania, bordering with Kenya. The area starts on the Kenyan border then extends south towards Arusha on the eastern side of the Arusha-Nairobi Road and is dominated by the impressive 2,629 metre (8,625 feet) Longido Mountain in the center. It is surrounded by mostly gentle rolling Acacia woodlands with belts of thickets and open plains. Longido Mountain starts with woodland slopes that turn to thicket and then into cool condensation forest at the top. Longido GCA is enriched being part of the dispersal area of the world famous Amboseli National Park in Kenya that is very close by. From our Longido Camp you have amazing views of Mt Kilimanjaro and Mt Meru.

Bird hunters can enjoy great wing shooting opportunities for several species of Quail, Sand Grouse, Dove, Francolins and Guinea Fowl, which enhances the experience of hunting these very special areas.

Being in close proximity to Arusha allows for an inexpensive, beautiful transfer by car to camp. Last, but not least; with the best game viewing parks in Africa, namely Ngorongoro Crater, Serengeti, Lake Manyara and Tarangire National Parks in the near vicinity, Longido GCA offers you a great opportunity to combine top quality game viewing with your hunting safari, and most of our clients take advantage of this opportunity.

This undeniably is the ideal hunting *and* holiday destination you want to share with friends and family and even young children.

Muhsesi Game Reserve

We are very fortunate to have acquired this great concession in co-operation with Worldserve International in the November 2024 auction. Muhsesi Game Reserve is 2,634sq km and is gently undulating, between 800 meters to 1,500 meters above sea level, and dominated by 7 larger hills and several large seasonal rivers. Muhsesi GR is enriched with a diversity of vegetation from Miombo woodlands interspersed with thickets, to open grassland plains and Acacia woodlands.

It is known for its well maned Lions, excellent Leopard hunting as well as Greater Kudu, Roan, East African Sable, Cape Buffalo, Lichtenstein's Hartebeest, Livingstone Eland, Southern Impala, Warthog, Bushpig, Chobe Bushbuck, Kirks Dik Dik, Common Duiker, Oribi, Klipspringer, Grysbok, Lesser Kudu, and Yellow Baboon. We have also observed Stripped Hyena and Harvey's Red Duiker but have not hunted them.

In the past, Muhsesi GR was administered under the Rungwa/Kizigo/Muhsesi Game Reserve but 8 years ago it became an independent TAWA management authority that focusses entirely on only this concession. This resulted in more intensified anti-poaching operations that saved the area from being depleted by poaching due to the absence of a hunting operator.

In Muhsesi GR we have partnered with World Serve International on this project and through their support we have already acquired 2 vehicles and 8 motorbikes to conduct this hugely successful anti-poaching operation. They also sponsored a brand new 132HP 4x4 Tractor for re-opening existing and making new roads, as well as paid for the repairs of the TAWA grader to assist in the development of Muhsesi GR. This year alone we managed to re-open and re-grade 548 kms of old roads and opened 363 kms of new roads. We further cleared the entire boundary and reclaimed the old Muhsesi airstrip which was totally overgrown in the last 8 years and now is in the process of being re-registered for use in the 2026 season.

Testimonials

Chrissie and I hunted our 51st safari with Michel Mantheakis. The recent 21 day safari with Michel was among the most fair-chase, challenging hunts we have ever experienced. Moreover, the camp, vehicles, and staff were all excellent. We are planning to soon return with other members of our close family.

**CHRISSIE AND JOHN J. JACKSON III,
PRESIDENT OF CONSERVATION FORCE, AND PAST PRESIDENT OF SCI
AND THE SCI SABLES (USA)**

My wife and I would like to thank Michel, Nicole and their whole team for another fantastic safari in Ugalla and Uganda this year. I've consistently experienced incredible hunting with Michel and his crew across Tanzania since 2008. Michel is the consummate Professional Hunter and I've known him long enough to know that he expects the very best from his people and they consistently deliver. Ugalla was a unique experience. A different part of the country we hadn't hunted before, with lots of cats, which I dearly love hunting. And Michel is an incredible cat man. That said, not even Michel could have choreographed sitting around a fire, watching a full lunar eclipse with lions sounding off across the river, but it is something I will always remember. I'm looking forward to the next safari with Michel.
(USA)

I have hunted in August 2025 with our clients in Longido. I was impressed with the quantity of the game, especially lesser kudu and gerenuk and with the hospitality of the camp staff and professionalism of the hunting staff, especially Martin Hopley. We harvested practically almost everything what we wanted within less than 10 days and the trophy quality is excellent. We received our trophies also with a very short time. Not at last the food was excellent too. I can recommend this area, operator for everybody and will be happy to return here again.

**ROLAND KOLLER
OWNER OF ROLAND KOLLER SAFARIS
(SLOVAKIA)**

It was great to spend time with you at Longido back in early June. Your camp, hospitality and hunting quality was absolutely wonderful. I will be recommending your company to all who inquire with me, for sure.

**HAL & ALLISON JOHNSON
(USA)**

We've hunted twice with Michel Mantheakis Safaris and both trips were outstanding. Excellent game taken thanks to their strong anti-poaching and conservation efforts, beautiful comfortable camps, superb food, and breathtaking scenery. Already planning the next one – recommended without reservation!

CHUCK AND VICKI ELZER (USA)

Zanzibar

Michel Mantheakis Safaris Zanzibar Ltd offers a one of a kind experience that combines conservation-focused hunting with the serenity of a tropical beach getaway: a perfect blend of beach and bush. On the enchanting island of Zanzibar, we provide access to three unique antelope species found only here: the Aders Duiker (also known as the Zanzibar Duiker), Sundervald's Blue Duiker, and the Zanzibar Suni.

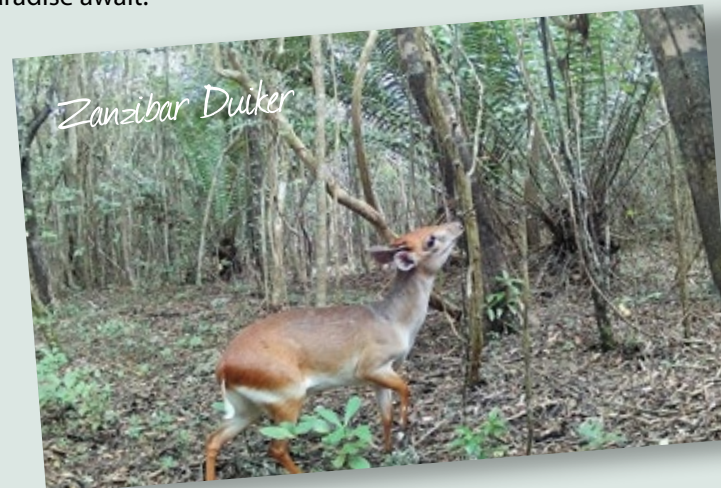

Our Conservation Project in Zanzibar was born from a deep commitment to protect the Aders Duiker from extinction. By implementing sustainable and selective trophy hunting backed by conservation science, we have created economic incentives for local communities to actively participate in the protection of this extraordinary species. In partnership with the Government of Zanzibar and the local communities of Mtende, Ukongoroni, Kiwengwa-Pongwe Forest Reserve and Muyuni Forests, we are spearheading this impactful project. Thanks to our dedicated anti-poaching efforts and financial support from the Shikar Safari Club during the COVID-19 pandemic, we are thrilled to witness a steady growth in the Aders Duiker population.

Guests have the option to stay in an intimate boutique hotel bordering the lush Mtende Community Forest Reserve or in one of the exquisite beach hotels and resorts just a short drive away. In addition to hunting, Zanzibar offers an array of attractions: historic tours of

Stone Town, Spice Tours, cultural explorations, swimming with dolphins, deep-sea fishing, diving, and much more. This safari can seamlessly combine with our Lukwati South Game Reserve or Longido GCA concessions for a comprehensive Tanzanian adventure.

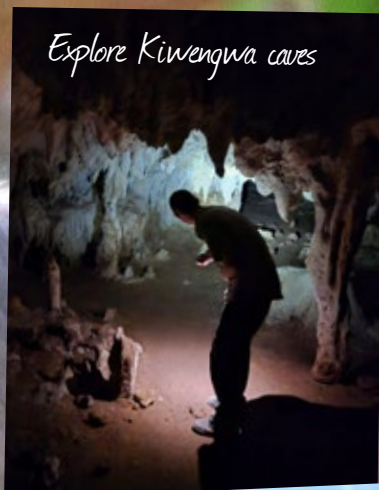

With previously only two exclusive hunts conducted annually, we can now proudly say that we have had not only 100% success rate on Ader's Duiker in Zanzibar since 2021, but have also been able to take more than 2 Ader's Duikers for the first time this year due to our diligent conservation. This safari is more than an expedition—it is an invitation to contribute to the critical conservation of a rare species through responsible and sustainable hunting.

Embark on this journey with Michel Mantheakis Safaris Zanzibar Ltd, where the thrill of the hunt, a commitment to conservation, and the allure of Zanzibar's tropical paradise await.

In memory of Ricardo Longoria, who hunted with us in June in Zanzibar. A great hunter, and a beautiful human being. He will be missed.

Lukwati South Game Reserve

Experience the heart of Africa in its purest form at Lukwati South Game Reserve, where wild landscapes and untouched wilderness await. Nestled far from the reaches of civilization, Lukwati remains unspoiled and fiercely protected through our rigorous anti-poaching initiatives, ensuring that you encounter this remarkable habitat as nature intended: unspoiled, untamed and unpredictable.

Spanning over 770 square miles (2000 square kms), Lukwati is as diverse as it is vast. The reserve encompasses an array of striking landscapes—from the shores of Lake Rukwa, ascending an impressive escarpment into the expansive Miombo woodlands, to its rugged mountains, winding rivers, lush swamps, springs, rocky outcrops, and sweeping grasslands. This immense territory offers a boundless wilderness to explore, though even the most ambitious journey will uncover only a fraction of its wonders.

Lukwati teems with an abundance of game, managed with utmost respect to preserve the integrity of this extraordinary ecosystem. Here, high success rates await for those in search of heavy-maned Lions, majestic Leopards, and venerable, old Buffalo. The reserve also boasts a remarkable concentration of stunning East African Sable, among an impressive variety of other species, including Greater Kudu, Roan, East African Eland, Hippo, Crocodile, Lichtenstein's Hartebeest, Defassa Waterbuck, Burchell's Zebra, Southern Reedbuck, Warthog, Oribi, Bush Pig, Common Duiker, Southern Impala, Spotted Hyena, Side striped Jackal, Klipspringer, and Sharp's Grysbok.

At our exclusive camp, you will be the only guest hunter, ensuring a private and immersive experience. Accessible by air charter from Dar es Salaam or Arusha to our private airstrip, or by commercial flight to Mbeya followed by a scenic 6-8 hour drive to camp, Lukwati promises a journey as unforgettable as the destination itself.

For those in search of true adventure and exceptional hunting within a vast, pristine wilderness, Lukwati South Game Reserve offers a rare opportunity to step into a realm of pure, unbridled Africa.

TERMS OF BUSINESS

- A deposit of 50% of the safari rate is required to confirm your booking. Full payment for your safari, together with the Trophy Fee deposit, must be received 90 days prior to the commencement of your safari. No safari will commence without full payment and trophy fee deposit.
- With any cancellation occurring more than 90 days from the start of the safari, the deposit will be re-funded only if the safari is re-sold and a 20% administration fee will be deducted.
- Any cancellation occurring **90 days** or less from the start of the safari no refund will be granted save for any Trophy Fee Deposit payment made. **It is highly recommended to get Trip Cancellation Insurance to cover yourself from any unexpected cancellation.**
- Game Trophy Fees and all Government Royalties charged will be those applicable to the year the safari is taken regardless of what is quoted on the initial contract. Invoices and quotes are subject to change based on any change in Government fees and/or Game Trophy Fees.
- Force Majeure, (meaning acts of God, explosion, floods, tempest, fire or accident, war, threat of war, sabotage, insurrection, civil disturbance, government intervention, weather conditions or other untoward occurrences). Any Government decision in regards to Michel Mantheakis Safaris Ltd is considered Force Majeure in this context. In the event of Force Majeure, the company is entitled to vary or cancel any itinerary or arrangement. Although all endeavors shall be made to reimburse you, refunds are solely to the discretion of the company.
- Trophies will only be shipped after full trophy payment has been received.
- Trophy Fees are applicable to **ALL** Game shot, **including** those wounded and lost.
- Upon the end of your safari, the final invoice, reflecting all additional charges or refunds will be send to you by email as soon as possible.
- All payments are payable in cash or by wire transfer.

LICENSING REGULATIONS AND RESTRICTIONS

- The hunting season in Tanzania starts July 1 and ends June 30 of the following year.
- No shooting from vehicle or chasing animals with car.
- No hunting of female, young or immature animal is allowed.
- Hunting is only to be conducted in the daylight hours.
- The Tanzanian Wildlife Department allows the following game to be hunted only on a 21-day license (Premium package): Elephant; Lion; Leopard; Oryx; Greater Kudu; Lesser Kudu; Sitatunga; Gerenuk; Sable; Roan.
- **The minimum legal length for Leopard** is 130 cm (51.2 inches) from tip of nose to base of tail
- **The minimum legal for Elephant** is 160 cm length (63 inches) of tusk or 20 kg weight (44.09 pounds).
- **The legal minimum legal age for Lion** is 6 years old.
- Minimum caliber for dangerous game is .375 (93mm). Hunting with handgun, automatic and semi-automatic weapons is strictly forbidden.
- A maximum of 3 Rifles and 1 shotgun per hunter and 100 rounds per rifle can be imported.

INSURANCE

We strongly recommend that you obtain the following types of insurance:

- Accidental Death and Disability
- Loss or theft of personal effects.
- Emergency Evacuation.
- Medical – Make sure it covers you in Africa.
- Trip Cancellation. Please purchase this policy immediately after booking your hunt to safeguard yourself.

Please make sure your policies are up to date and you are fully insured before you travel.

LIABILITY

It is important to understand that hunting is a sport that involves **inherent risks**; big game hunting **can be dangerous**, and in rare cases result in injury or even fatal. Although every possible care is taken to safeguard you and your property, Michel Mantheakis Safaris Ltd accepts no responsibility for any accidents, injury, illness or fatality nor loss or damage of client's property incurred during or arising while on safari. The company accepts no responsibility for any changes in Government fees or policies. We will however, endeavor to notify you as soon as possible, should this occur. **No guarantees are made for any animal not obtained during the hunt as our PH's adhere to the principals pertaining to Fair Chase and ethical hunting and regulations as stipulated in the Wildlife Conservation Act of Tanzania.**
